Ventilation and Noise Control

Since 1946

MARINE VENTILATION & EXHAUST SYSTEMS

For 80 years, Eldridge has been a trusted leader in ventilation and noise control, with systems installed across much of the world's offshore fleet. With deep expertise in MODU requirements, our team delivers complete ventilation systems that perform reliably in harsh offshore conditions and support safe, efficient operations.

Fans

- Supply/Exhaust
- Process

Pit Boss Coalescer

Louvers & Dampers

Acoustic Silencers

Dehumidifiers

Electric Heaters

Fire Dampers

Dust Collectors

Blowers

Filters

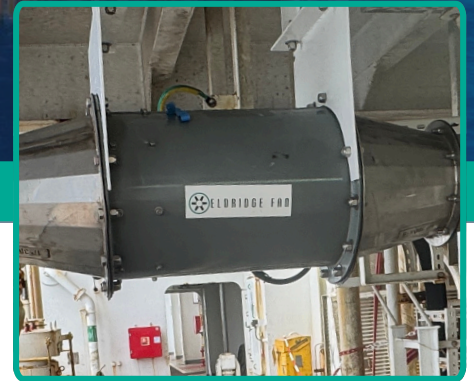

Eldridge Storm Guard Hood™ Systems

Storm Guard Hoods keep out rainwater and overspray without the bulk of traditional designs. Their compact profile frees up valuable deck space while maintaining consistent airflow in harsh conditions.

ENJET™ Exhaust Systems

Our patented ENJET exhaust technology protects offshore crews and equipment by capturing and expelling harmful gases away from critical areas. Designed for marine environments, it prevents rollback and delivers efficient, low maintenance performance.

From Concept to Installation

We deliver custom ventilation and acoustic solutions from concept through installation, solving complex airflow, temperature, and air quality challenges. This end to end approach ensures each system is tailored for safety, equipment protection, and long term reliability.
