

# VENTILATION SYSTEMS THAT KEEP POWER RUNNING

Eldridge delivers ventilation and noise control systems that maintain consistent airflow, protect critical equipment, and create stable operating conditions across a wide range of environments. Backed by decades of experience, we design systems that perform when it matters most.

## OUR PRODUCTS

Fans

- Supply / Exhaust
- Process

Blowers

Anti-Icing & Warm Air Systems

Louvers & Dampers

Filters

Acoustic Silencers

## Custom Engineered Solutions

From concept through installation, we deliver complete ventilation systems that address complex airflow, heat load, and air quality challenges. Our team manages every phase to ensure a seamless process and consistent results.

## Analysis Driven Design

Advanced acoustic and ventilation analysis drives system design. Each solution is precisely optimized to protect crucial assets and maintain safe working conditions.

## Proven in Power Applications

Eldridge has been a prominent design and equipment provider to the largest power generating companies in the world for over 80 years. Our proud history of designing ventilation systems for gas turbines is still the standard for what is in place today.

# MISSION STATEMENT

Creating successful environments for people, products, and processes.

## WE PUT CREATIVE THOUGHT INTO VENTILATION

Eldridge has been in business since 1946 and has a proven track record of exceeding customer expectations. Our design team has managed projects across the United States and across the world. We have the experience necessary to ensure our customers' success. We aim to create long-lasting relationships with our customers. Our customers have come to rely on us as an integral part of their valued resources. We look forward to providing the same service to your company in the near future.

## OUR CLIENTS INCLUDE

- GE Vernova
- Wartsila
- Aurelia
- Man B&W
- STP Nuclear
- Pro Energy
- Wattbridge
